

# PAYMENTS

It Pays to Pay at the Right Time

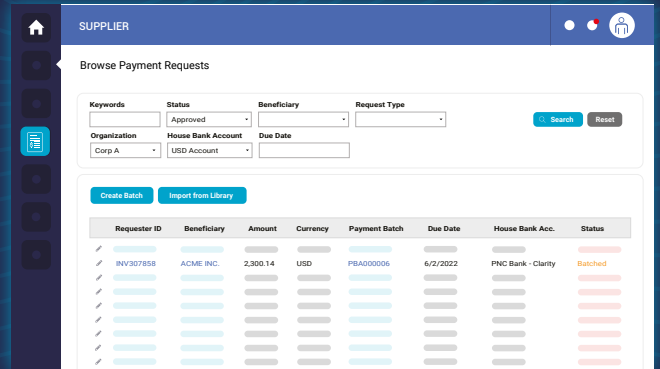

WORKFLOW CONTROLLED

MULTIPLE METHODS

SEGREGATED, SECURE & AUDITED

Ivalua’s Payment capabilities ensure you pay suppliers at the right time—every time. Let AP become a strategic business partner through invoice and payment digitization. Introducing a solution beyond the limitations of ERP - gain real-time visibility and complete control over your supplier relationships. In today’s diverse and ever-changing business landscape, managing factors like sustainability, financial risk, and workforce ethics requires more than just an “okay-to-pay” approach. It’s time for a solution that offers instant visibility and precise control to navigate these challenges and mitigate fraud.

### Workflow Controlled

All of your payments in one central repository will provide you with an unparalleled view of your working capital opportunities. Every payment is controlled by an embedded workflow to trap duplication, block fraud, consolidate supplier payments, and connect with Supply Chain Financing solutions.

### Multiple Methods

Discover a world of versatile payment options, from virtual cards to cross-border currency exchanges and classic ACH via your bank or ERP. With Ivalua, you hold the power to decide the final payment method, guided by your workflow and approved by you. No matter the transaction, you have the ultimate say on when it’s the right time to pay.

### Business Compliant Invoicing

Our fully segregated workflow is designed to block fraud and payment errors. Every payment or bank account change is meticulously audited and tracked with an added layer of security through 2FA. Plus, our platform operates in your own secure hosting environment, so you can have complete peace of mind.

## Your Payments Reimagined

Paying Suppliers on-time in an efficient, cost-effective manner establishes business continuity and builds strong supplier relationships. Often, Accounts Payable teams are stretched too thin to turn the payment into a revenue opportunity. With your own supplier self-service website, AP can refocus from inquiries and exceptions, and start working with the business to optimize your use of working capital across the spend cycle.

### Business Compliant Invoicing

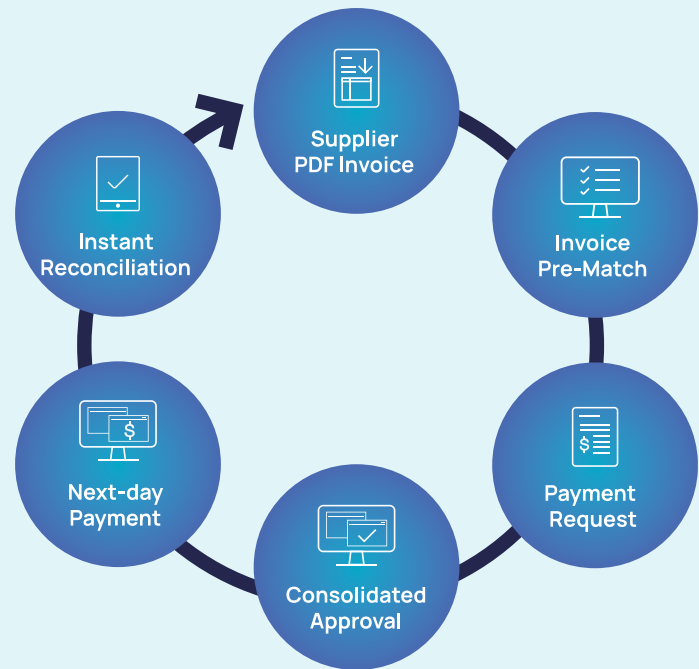

- ✓ Reduce supplier inquiries
- ✓ Instant payment status
- ✓ Secure 2FA approvals

### Streamline AP Functions

- ✓ Eliminate manual tasks
- ✓ Block payment duplications
- ✓ Automated reconciliation

### Pay at the Right Time

- ✓ Consolidate supplier payments
- ✓ Dedicated Payment Workflow
- ✓ Domestic & Global next-day payments
