

Procure-to-Pay Value, Accelerated

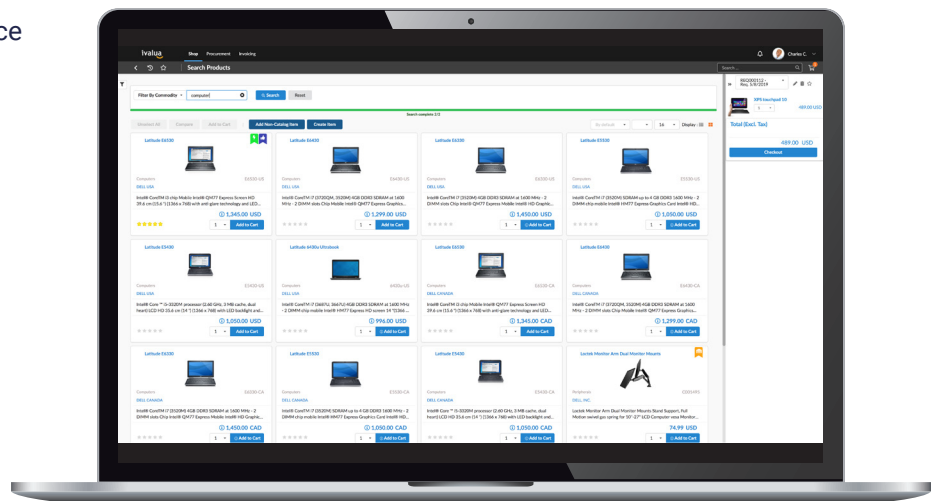

Deploy best practice P2P in 8-12 weeks

Procure-to-Pay is ripe for digitization. Often within this process companies face inefficiency and unnecessary costs, poor controls and visibility into suppliers and spend and lastly, missed opportunities to generate value.

What organizations want is to simply manage and control spend using a solution that can rapidly onboard users and suppliers, guide users towards what they need in a compliant manner and digitize the complete end-to-end P2P process.

With Ivalua's quick deployment package, companies can get:

- ✓ A modern B2B e-commerce experience
- ✓ Built-in best practices from decades of experience
- ✓ A solution that grows as your needs do
- ✓ A comprehensive P2P solution in 8-12 weeks
- ✓ Pre-built Integrations

“We were able to go live with Ivalua's P2P solution in 8 weeks, with more suppliers onboarded than in 7 years with our previous technology provider, employees quickly adopted the software and our suppliers appreciated the Ivalua model, which makes it easy to connect and helps improve collaboration.”

Cindy Seabrease

Director of Purchasing and Accounts Payable
Maxim Healthcare Services, Inc.
